

Warning Status

The Commission's policy for placing a school on Warning Status is as follows:

When the Commission finds that an institution is in direct and immediate danger of losing its accreditation because of conditions that threaten its ability to comply with the requirements of affiliation and/or *Standards for Accreditation* and/or other policies, but when the Commission feels that it is not appropriate to use the Probation status, the Commission may place the school on Warning. *(It is noted that Probation status is a matter of public record and must be made public by the school. Warning has no such requirement.)*

The school that is placed on Warning will be required to file frequent reports and undergo, at a minimum, an annual visit from representatives of the Commission. If the institution does not show progress in correcting the conditions, the Commission will review its decision on Warning and will recommend to the Board of Trustees of the Association that the school will be placed on Probation, unless there are mitigating circumstances which would indicate a more appropriate course of action.
